

Creation Station News

We have had a wonderful start to our school year at Creation Station. God has given us precious children to participate in preschool this year. We feel so blessed to be part of your child's first school experience.

We have been busy learning about God's awesome Creation. The children learned that God created night, day, water, land, and plants. We're all eagerly waiting to hear what He created next.

It's been fun to see the children dress in the special color of the day. We've enjoyed playing in the colored water and using play doh and rice. We like to paint and create at the art center. The writing center has also been a popular spot. Our discovery table has been home to nature items to be examined through magnifying glasses. We were surprised by the different smells that were concealed in small containers. Onion is a bit stinky, but, oh, does cocoa smell good! We're learning the routine at preschool, too. Playtime outside usually follows snack time and we love to go out for a game or just to play on the playground.

Another part of learning to be together at preschool is learning what our teachers expect from us. This week we will be focusing on the following expectations:

****Do Your Best *Cooperate *Treat Your Friends With Love & Kindness***

We will also discuss and explain our 1-2-3 Magic Discipline. It's great if you want to also talk with your child at home about these expectations.

We are excited to have peer tutors from Pella Christian High and students from Central College working with us during the first semester.

A newsletter from Pella Christian Grade School will be found in your child's bucket about twice a month. Please take time to read it over since some of the information is important for preschool families.

We're looking forward to another super week at preschool. We appreciate your prayers for all of us at Creation Station. Thanks so much!!
